Mission Statement

Artisans is a non-profit agency providing services necessary for individual job employment, employment support, and employment opportunities in the community for persons with disabilities.

Artisans Philosophy

Artisans believes that each person, whether developmentally disabled or not, has a unique value. And as a complete human being has the right to employment regardless of race, religion, sex, or disability. Artisans maintains that these individuals are entitled to compensation in accordance with ability and appropriate commensurate wage. Our goal for every individual is to assist them in reaching their earning capacity. Artisans aims to provide the most integrated setting possible so that all employees can attain their maximum potential both in vocational terms and as a contributing member of our community.

History Of Artisans

Artisans is a local not-for-profit organization that has been a community partner since 1987 providing services necessary for individual job development, employment support and employment opportunities in the community for persons with disabilities. Over the years Artisans has grown from an agency providing services for a handful of clients to serving more than 165 clients in the community today.

Artisans began as part of L'Arche Spokane, an international affiliated organization that provides residential assistance for persons with developmental disabilities living in the Spokane area. It started on a small farm in Mead, Washington where L'Arche residents were employed making woodcrafts and gardening. The organization established itself as an independent non-profit business in 1994, still focusing its efforts on woodworking, but expanding its services to more disabled clients in the Spokane community.

Over the years the organization went through a few location transitions and leadership changes. Polly Maxwell, Executive Director, filled this role for the organization beginning in 2002. Led by her business management experience and passion developed from her personal connection to the disabled community, the organization was steered in directions to better meet its clients' needs and improve the organization's outcomes. Part of this transition included restructuring of the organization to focus on community-based employment. Through continually evolving to meet the needs of its clients, Artisans programs have grown, and the organization has become a well-established not-for-profit organization in the Spokane community.

Artisans contracts with Spokane County, Developmental Disability Administration (DDA), the Division of Vocational Rehabilitation (DVR), Foundational Community Supports (FCS) and several school districts to provide a variety of employment support and community inclusion services. Artisans has also built relationships with area universities (EWU, WSU Riverpoint, Gonzaga, Whitworth) over the years to involve students in its programs through service opportunities, work study and seasonal employment opportunities, and school projects.

Artisans became a CARF (Commission on Accreditation of Rehabilitation Facilities) Accredited organization in 2013. The DVR contract added in 2014 enabled the organization to serve persons diagnosed with a broader scope of disabilities, further expanding our reach of services in the Spokane community. In 2019 Artisans added Foundational Community Supports (FCS) employment services and Independent Living services through its DVR contract to reach more individuals and better meet identified needs in the community. In 2020 Artisans also started providing Benefit Planning services.
